Dear Clare,

Application 00491 Coxlease School, Clay Hill, Lyndhurst, SO43 7DE
Application to vary condition 8 of planning permission 10/95478 to allow a maximum of 80 pupils

1. New Forest Association (NFA) objects to this application.

2. The application as written would materially increase the level of impact of the activity on the site and thus be contrary to DP17. A quick guess at the increased activity might be by 80/55 or around 50%. The facility is not intended for use by the local (Park) community and no exceptional circumstances are claimed to warrant a departure from policy.

3. There is an implication that staff numbers will decline. If it were possible to impose a condition limiting the total number of staff and pupils combined to that existing around the time of 10/95478, NFA would be satisfied that there would be no material increase in activity.

Yours sincerely,

Graham Baker
NFA Planning Committee
